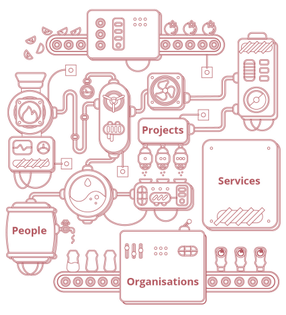
# A new channel to promote social inclusion services and initiatives: discover the MoreThanAJob Portal!



The MoreThanAJob portal is...
An **online multilingual structured database and interactive space** to foster dialogue and cooperation between Social and Solidarity Economy (SSE) actors and public administrations for the development and delivery of services supporting the social and labour inclusion of vulnerable groups.

With this tool, we aim to:

***provide a simple and complete overview of the existing services and opportunities*** *to support the social and employment inclusion offered in the project partners' territories*

***support the exchange of synergies among private and public stakeholders*** *for the development of new services for the socioeconomic inclusion of vulnerable groups*

## How it is structured

In the portal, you will find **five main sections:**

**The project** – a short description of the MoreThanAJob project as part of which the portal has been developed
**Categories -** the information uploaded on the portal will be classified in **five main categories** to facilitate the access to relevant information: Family and income support | Health and counselling services | Education and training | Career guidance and employment support | Culture and participation
**Services and opportunities –** a search form facilitating the users' experience in the research of services and opportunities answering to their needs
**Organisations –** a search form that will allow the users to look for other organisations based on their expertise, country of work and types of services implemented
**News –** where there will be information on relevant publications, funding opportunities and updates on the project activities.

## What you can do on the portal

If you are an organisation or an institution, we will work together **to promote your welfare services** addressed to vulnerable groups and you will have the chance **to be also inspired by other initiatives and opportunities.**
Each organisation registering on the portal will have a profile page where to share information on their:

- *Portfolio* – an overview of social and labour inclusion projects related to the five main categories of the portal
- *Expertise* - in one or more of the identified macro categories to facilitate the development of new cooperation opportunities at local and international level
- *Services and opportunities* – showcasing welfare and support services and opportunities they are offering to better reach their final beneficiaries
- *Collaborations* – to create new opportunities for the development or renovation of innovative social services and opportunities with other actors registered on the portal

## Join a network of Euro-Mediterranean actors and foster your cooperation opportunities...

**...to improve your opportunities to collaborate with other stakeholders and public administrations** for the development of new services, projects and initiatives at local and international level.
Stay updated on the project activities and relevant information through the News section on the portal!

If you need further information on the portal and on how to join it,
please write to

*The MoreThanAJob portal is developed as part of the MoreThanAJob project funded by the European Union under the ENI CBC Med Programme. MoreThanAJob aims at enhancing the development of cooperation mechanism between the Social and Solidarity Economy (SSE) and the public administration to improve the social services for vulnerable groups in order to increase their opportunities of social and labour inclusion.*

*The project has a budget of €2 million, out of which €1.8 million as EU contribution and 10% as co-financing.*
