## WINES FROM MEDITERRANEAN PROTECTED AREAS

Since ancient times, the Mediterranean has been an essential region for wine production where Tunisia, Italy, France and Lebanon give some of the best wines in the world.

Vine cultivation and wine production are still closely linked to our culture and history and continue to be an important source of income and pride for our local communities.

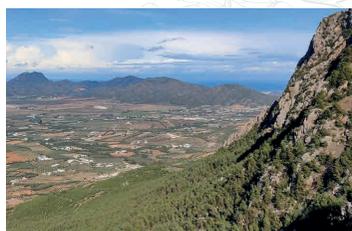

**RESERVIN** is a quality brand based on a participatory approach of sustainable viticulture through the implementation of technical and organizational solutions that preserve the virtuous practices of viticulture around the Mediterranean.

The history of **RESERVIN** is unique: four countries in the Mediterranean basin have come together to produce quality wines exclusively from protected areas.

With the support of the European Union, our collective aims to perpetuate the commitment of our countries in the production of quality wines and to offer the world a new range enriched by our oenological and viticultural experiences.

**RESERVIN** highlights wines produced in the protected areas of the Mediterranean, through a common brand for wines produced in the following regions:

**Boukornine Reserve in Tunisia,**

**the Park of the Roman Castles of Lazio, Italy,**

**the Lagoon of Thau and the Pays de Minerve in France,**

**the Chouf Biosphere Reserve in Lebanon.**

**RESERVIN** offers you a unique experience of a journey through Mediterranean wines, an exclusive, enriching and enchanting experience.

Each of us, wine makers, promises a wine with a distinct, warm, friendly personality, respectful of the values of Mediterranean cooperation. We are committed to protecting our fragile ecosystem, to respecting the environment. Our social and cultural consciousness reflects the vision of the future Mediterranean landscape of vines and wines.

A symbol of quality, **RESERVIN** is imbued with the pride of the founders of the history and wine culture of the Mediterranean.

At its heart, **RESERVIN** is our love letter to the Mediterranean. It is a mediation of sustainable human practices, an invitation to celebrate our collective future.

Our **RESERVIN** wines invite you to give free rein to your imagination: in each sip we discern a symbol of our Mediterranean specificity that reconciles ancient cultures and modern times.

As you uncork a bottle of **RESERVIN**, remember that your purchase is an act of love and emotion, one that manages to unite humanity, the environment and our cultural heritage.
