

## CATEGORIES

### 1.1 USE OF LAND

To optimize the use of land, from a physical and social point of view, in developing urban areas

PREPARATION

## CATEGORIES

### 1.2 GREEN URBAN AREAS

To improve quality, availability and accessibility of green urban areas

PREPARATION

## CATEGORIES

### 1.3 BIODIVERSITY AND ECOSYSTEMS

To protect biodiversity within urban areas and enhance the natural resources

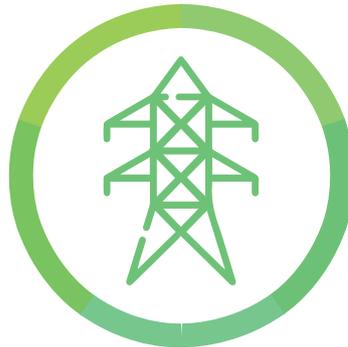

PREPARATION

## CATEGORIES

### 2.1 ENERGY INFRASTRUCTURE

To deploy and maintain energy infrastructure to guarantee energy to all the population

**CATEGORIES**

**2.3 RENEWABLE ENERGY**

To reduce greenhouse gas emissions, promoting clean energy generation, and creating sustainable and resilient urban environments

**PREPARATION**

**CATEGORIES**

**2.2 ENERGY CONSUMPTION**

To implement energy-efficient practices to reduce inefficient consumption

**PREPARATION**

**CATEGORIES**

**3.1 WATER INFRASTRUCTURE**

To provide clean, reliable, and sustainable water services to urban populations

**PREPARATION**

**CATEGORIES**

**3.2 WATER CONSUMPTION**

To ensure sustainable water resource management, reducing waste, and promoting responsible water use

## CATEGORIES

### 3.3 EFFLUENTS MANAGEMENT

To ensure the safe and environmentally responsible handling of wastewater and other effluents

PREPARATION

## CATEGORIES

### 4.1 SOLID WASTE INFRASTRUCTURE

To ensure and diffused effective waste management infrastructure, resource conservation, and environmental protection within urban areas

PREPARATION

## CATEGORIES

### 4.2 SOLID WASTE MANAGEMENT

To implement effective waste management systems, promoting recycling and waste reduction, and engaging with the community

PREPARATION

## CATEGORIES

### 5.1 AIR QUALITY

To reduce air pollution, enforcing regulations, and promoting clean and sustainable practices

PREPARATION

**CATEGORIES**

**5.2 NOISE**

To implement noise-reducing measures, enforcing regulations, and considering noise in land use and transportation planning

**PREPARATION**

**CATEGORIES**

**5.3 ENVIRONMENTAL IMPACTS**

To mitigate adverse effects, promoting sustainable practices, and preserving natural resources

**PREPARATION**

**CATEGORIES**

**6.1 MOBILITY SERVICE PERFORMANCE**

To optimize mobility services to achieve more efficient, accessible, and environmentally friendly urban transportation networks

**PREPARATION**

**CATEGORIES**

**6.2 GREEN MOBILITY**

To promote alternative forms of urban transport aiming to improve environmental sustainability, reduced congestion, improved air quality, and enhanced quality of life.

## CATEGORIES

### 6.3 SAFETY IN MOBILITY

To improve liveability and safety for for any kind of user of the urban mobility system (pedestrians, bikers, car drivers, public transport users)

PREPARATION

## CATEGORIES

### 7.1 ACCESSIBILITY

To create inclusive, barrier-free urban environments. These decisions are crucial for promoting the independence and well-being of individuals with disabilities

PREPARATION

## CATEGORIES

### 7.2 HOUSING

To ensure the affordability of housing property/rental in urban areas, also for low-income residents

PREPARATION

## CATEGORIES

### 7.3 EDUCATION

To expand and transform the educational services offered to the residents in urban areas, reducing inequalities

PREPARATION

## CATEGORIES

### 8.1 ECONOMY PERFORMANCE

To evaluate the economic well-being of the residents to influence the economic vitality, competitiveness by planning growth, workforce development, and infrastructure

PREPARATION

## CATEGORIES

### 8.2 EMPLOYMENT

To evaluate the labour market status, the economy development and citizens' quality of life to influence the economic vitality and competitiveness

PREPARATION

## CATEGORIES

### 8.3 INNOVATION

To encourage the creation of business and the improvement of economic performance of urban areas

PREPARATION

## CATEGORIES

### 9.1 ADAPTATION TO HEATWAVES

To reduce urban heat, and enhance the resilience of cities and communities to extreme heat events associated with climate change

PREPARATION

## CATEGORIES

### 9.2 ADAPTATION TO PLUVIAL FLOOD

To minimize the impact of heavy rainfall on urban areas and enhance the overall resilience of cities and communities to pluvial flood events

PREPARATION

## CATEGORIES

### 9.3 ADAPTATION TO DROUGHT

To ensure urban water resilience and the sustainable management of water resources in the face of increasing drought risks due to climate change

PREPARATION

## CATEGORIES

### 10.1 URBAN PLANNING

To raise the level of participation and involvement of residents' community in urban planning

PREPARATION

## CATEGORIES

### 10.2 MANAGEMENT AND COMMUNITY INVOLVEMENT

To ensure that projects are executed efficiently and within budget, while community involvement empowers residents to have a say in shaping their urban environment

PREPARATION

## CATEGORIES

### 10.3 PUBLIC BUILDING OPERATION

To ensure that the public building stock is sustainable, with optimal operational energy costs and energy efficient
