**Synergy and Stakeholders Consultation for Identification of Priorities in  
Monitoring of the Coastal and Marine Ecosystem Resources in Tyre, Lebanon**

الاثنين، 21 آذار 2022 Monday, March 21<sup>st</sup> 2022

صور، لبنان Tyre, Lebanon

**Workshop Objective:** The workshop objective is to establish synergy between projects, stakeholders and the competent management entities in the field of coastal and marine ecosystem resources in Tyre, Lebanon, and to identify priorities and potential collaboration for coordinated delivery of training and capacity building towards establishing a community identified regular long term environmental monitoring program of the coastal habitats. This is to stem from the different projects' objectives and identified monitoring indicators, and training needs through stakeholders' consultation. The overarching goal of this initiative is to enhance the planning of and subsequent training to achieve sustainability of coastal environmental monitoring through having it nested in the interest of the local community and competent managing entities, supporting them to continue with a regular coastal environmental monitoring as a common practice.
