

# MED4ZEROWASTE & CIRCULAR ECONOMY ONLINE COURSE

01

## Content

The content of the course is based on the experiences of the five projects capitalized by Med4Waste (DECOST, MED-InA, CLIMA, CEOMED and REUSEMED), the technical knowledge of Rezero Foundation and the Med4Waste project partners, and the current literature.

02

## Platform

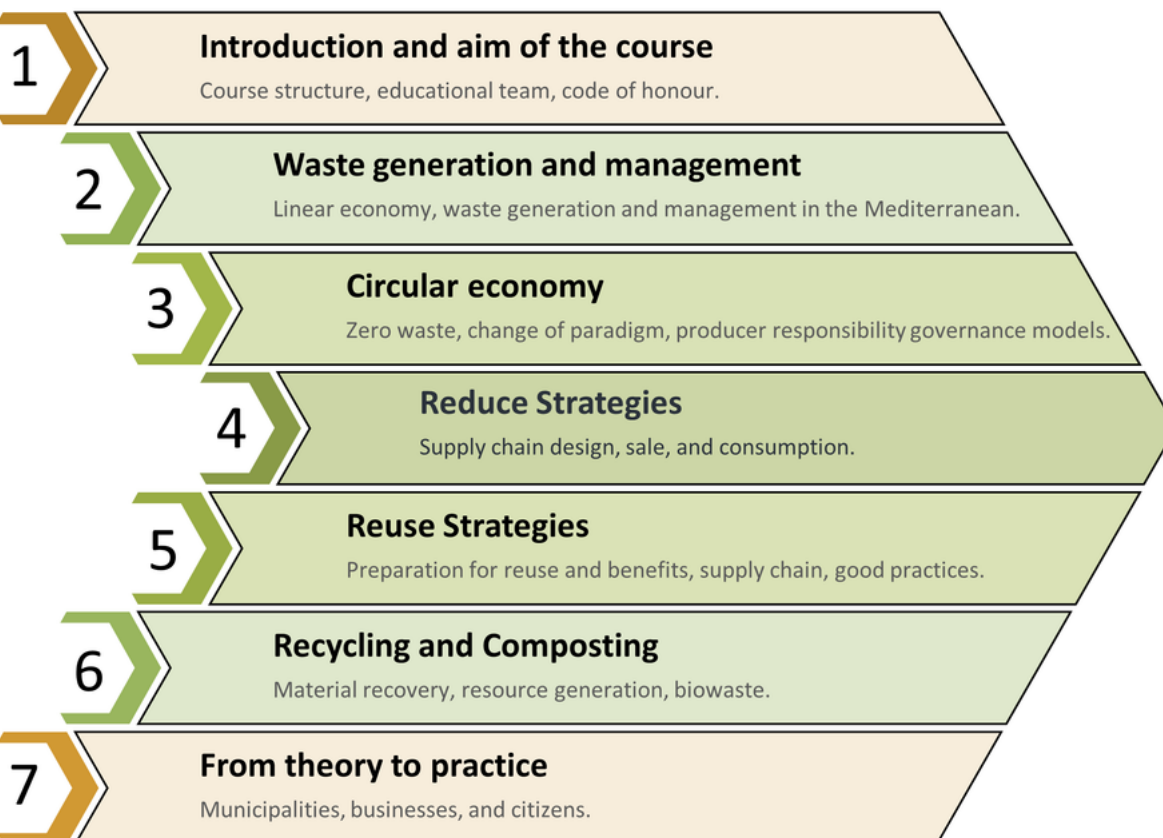

The course is hosted at Ubiqua, UVIC-UCC's own platform. This ensures that the course will always remain free and open to anyone.  
  
The course is self-paced and not linear, so you can start by the topics most interesting to you.

03

## Targets

The main target of this course is staff working on municipal waste management topics, either in public or private institutions. However, anyone with an interest in waste management and circular economy are welcome to enroll.

# MED4ZEROWASTE & CIRCULAR ECONOMY ONLINE COURSE

## How to enrol to the course?

Scan this code to enrol

<https://ubiqua.uvic.cat/enrol/index.php?id=800&lang=en>

The screenshot shows the Ubiqva Learning Platform login interface. It includes a 'Log in' button, a 'Lost password?' link, and a 'Create new account' button which is circled in green. Below the login options, there is a section for 'Some courses may allow guest access' with an 'Access as a guest' button. The language is set to 'English (en)' and there is a 'Cookies notice' link.

- Scan the QR code.
- Scroll down and click on "Create new account".
- Accept the Ubiqva Terms of Service.
- Pick a username and password, write your name, and provide an email address.
- Check your email for a confirmation email, and you are ready to start the course!
