

## Map of facilities and resources dedicated to reuse/preparation for reuse

For the purposes of this work, the following concepts are to be considered:

- **Reuse:** any operation by which products or components that are not considered waste are reused for the same purpose for which they were originally conceived.
- **Preparation for reuse:** control, cleaning and repair operations whereby products or their components that have become waste are prepared for reuse without further intensive treatment.

### Territorial scope

1	Entity that completes the information	Ministry of Local Administration (MOLA/ P2)
2	City name	Deir Allaa
3	Number of inhabitants	61,000 total population.
4	Area of the municipality (km2)	61.053
5	Urban area developed (km2)	-

### What best characterizes your region?

- ~~1. Predominantly rural~~
- 2. Predominantly urban
- 3. Predominantly suburban
- 4. Other (specify):

### What is the general regulatory approach to reuse and / or readiness for reuse related activities in your region?

- 1. Passive, there is no regulation or indirect regulation regarding reuse
- ~~2. Some indirect regulation, but without specific measures regarding reuse~~
- 3. There are regulations on reuse in place.
- 4. There are regulations on reuse and they are respected
- 5. There is a regulation on reuse, but the requirements are not always met
- 6. Other (specify):

Describe in more detail the regulatory situation with regard to reuse in your region (any specific legislation, regional guidelines ...)

In Jordan we do not have specific regulation addressing the Reuse topic lonely. However, we have two main legislations that addressing Reuse as one of the main three Rs principles (Reduce, Reuse, and Recycling) that focusing on treating waste and improving the Solid Waste Management (SWM) field, namely:

1. National Municipal Solid Waste Management Strategy (2015 – 2034).
2. Waste Management Framework Law No. (16/2020).

Regional activities related to reuse are mainly associated with:

1. Public authorities
2. Private companies and / or private initiatives
- ~~3. Social or charitable entities~~
4. Voluntary initiatives
5. Other (specify):

As part of the overall management of waste, are government financial aid options available for its reuse and / or preparation for reuse activities?

1. Absence of government financial aid to support activities related to reuse
2. There are limited measures of direct / indirect financial support
- ~~3. There are some direct / indirect financial support measures but nothing significant~~
4. There are many direct / indirect financial support measures, but nothing significant
5. There are some important measures of direct / indirect financial support
6. There are many important measures of direct / indirect financial support
7. Other (specify):

Describe in more detail the financial situation in your region as much as reusing or preparing for reuse concerns (any specific financial support programs, benefits ...)

Currently, we have in Jordan a few international fund that including component for supporting the circular economy activities (i.e. recycling, reuse ... etc.), which they are

considered as indirect financial support to such activities, mainly, they are focusing more on recycling and composting activities.

Is there a website or mobile application that facilitates the purchase-sale, donation, loan or exchange of products? **No, there is not.**

Designation	Activity (1,2,3,4)*	Scope (I,N,R,L)**
<a href="#">Al- Ghaddac Charity Association</a>	1	N
<a href="#">Bab Al- Rayan Charity Association</a>	1	N

\* 1 Buy and sell. 2 Donation. 3 Loan. 4 Exchange

\*\* I=International, N=National, R=Regional, L=Local
