

First series of Stakeholder Workshops
Theme: Changing the paradigm for wastewater reuse
8th of October, 2020
Web meeting via WEBEX, ESAMUR & PSA (CIEMAT)

Agenda

09:30 – 10:00 am Registration

10:00 – 10:45 am Introductory and Roundtable session

- The ENI CBC Mediterranean Sea Basin Programme
- The importance of reuse of treated effluent in water scarce regions
- Invited talk: MENAWARA project (ENI CBC MED)
- Scope of AQUACYCLE & Role of partners in project
- Outcomes from desk reviews, stakeholder interviews & SWOT analysis

Roundtable: Challenges faced to increase the reuse of treated effluent

Short break

11:00 – 12:30 am The APOC Technology and Roundtable session

- Design & development of an eco-innovative & cost-effective domestic wastewater treatment technology
- The 3 demonstration units of the APOC technology
- APOC Technical presentations (anaerobic digestion/wetlands/Raceway Pond Reactors)
- Planned Training Events on the APOC technology

Roundtable: expectations and training needs on the APOC technology

Short break

12:45 – 13:15 pm AQUACYCLE WebGIS and Brainstorming session

- Prototype design of online decision support tool

Brainstorming: Feedback and contributions to the online platform

Conclusions from Workshop
