Mitigation Enabling Energy Transition in the Mediterranean region
Together We Switch to Clean Energy

EFFICIENT BUILDINGS

February 2022

JOINT EURO-MEDITERRANEAN WORKSHOP TO OFFER THE OPPORTUNITY TO MASTER PROVEN SOLUTIONS FOR ENERGY EFFICIENCY IN BUILDINGS

The online workshop will be held on Wednesday 24th of February (10.00 – 13.00 CET)

The three European projects SEACAP 4 SDG, MeetMED and Efficient Buildings Community join their forces in the co-organization of the Euro-Mediterranean workshop **“Innovation & impact: Good practices in energy efficiency for buildings in Mediterranean cities”**.

The event, mainly addressed to decision-makers, local authorities, as well as local, regional and national energy agencies, represents the opportunity to present a panorama of **replicable tools and methodologies** in the field of **energy efficiency for buildings**.

In addition, in parallel working groups the participants will explore the needs of the cities to investigate the **transferability and concrete application** of the proposed solutions at territorial level.

The **SEACAP 4 SDG** project, funded within ENI CBCMED Program, aims to find innovative solutions and tools to reduce energy consumption in public buildings through cost-effective approaches to energy refurbishment, integrating Sustainable Energy Access and Climate Action Plans and innovative support mechanisms for Cities.

MeetMED is an EU-funded project aimed at strengthening the implementation of EE measures and improving countries' energy mix focusing on building and appliances' sectors through a multiscale, multi-partner and inclusive approach at local and regional levels, thereby fostering regional cooperation.

Efficient Buildings Community, funded within INTERREG MED Program, is a network of public authorities, energy agencies, research institutions and business organizations with the aim to unlock energy efficiency potential of public buildings in the Mediterranean area.
