The Genoa Challenge & Solution

The Genoa **challenge** focuses on monitoring air quality standards of public spaces and the effects of climate change, in order to preserve citizens' well-being and the critical infrastructure of historical buildings in the city centre UNESCO site.

InHeritage project is a **solution** that tackles the impact of climate change and pollution for the preservation of UNESCO heritage buildings in Genoa, Italy.

BEAIR, is an innovative ecosystem **solution** of services for the city of Genoa, fostering more sustainable habits to improve air quality.
