SEACAP 4 SDG | Med SE(A)CAP integration through uniform adapted assessment and financing methods, mainly targeting buildings in education and health sectors, for sustainable development goals in a smart society

February 2023

SEACAP 4 SDG PUBLIC EVENT: “Green and Efficient Cities for a Sustainable Mediterranean” IN TUNIS

The **SEACAP 4 SDG project**, funded by the European Union under the ENI CBC Med Programme, aims to find innovative solutions and tools to reduce energy consumption in public buildings through cost-effective approaches to energy refurbishment, integrating **Sustainable Energy Access and Climate Action Plans and Innovative Support Mechanisms for Cities**.

The **SEACAP 4 SDG partners**, in collaboration with Tunisian municipalities, institutional entities and selected local experts, organise the public event **“Green and Efficient Cities for a Sustainable Mediterranean”** to be held in presence on **Wednesday March 8th (08.30 am – 1 pm, local time)** at *Hotel Campanile El Mechtel*, in Tunis (Tunisia). The event will be organized in hybrid format, and the interventions will be in English and in French.

During the event project partners will introduce the **Energy efficiency plans for cost-effective energy rehabilitations of local public buildings** in the Tunisian cities such as of Municipality of Bizerte, Municipality of Tunis, Municipality of Nabeul, Municipality of Sousse. The gathering provides also an opportunity to offer information about the SEACAP4SDG initiative's outcomes and to discuss about **new models of sustainable energy development actions** to implement within the Mediterranean territories during the **round table “Towards green and sustainable Tunisian cities”**.

It is open to decision-makers, local government officials, and local, regional, and national energy agencies, as well as professionals.
