Brief description of the venture's line of work	
General description of the Eco-Innovative solution	
Briefly describe your eco-innovative solution and its value proposition (You can add here a link to a video where the solution is explained)	
Please explain how your proposed solution is aligned with the objectives/goals of the challenge?	

 **STAND Up!**

<p>Please detail in which way your solution is considered innovative (Does it deliver new services to local and regional communities, introduce a new product into the market, or develop a new, effective and financially sustainable way of delivering environmental and social benefits?)</p>
<p>Will the implementation of your innovative solution have a positive environmental impact? please explain.</p>
<p>Will the implementation of your innovative solution involve positive changes in terms of consumer behaviour and promotion of sustainable living? Please explain</p>
<p>Use of the Voucher</p>
<p>Please define how would you make use of the voucher to develop your solution. (Which services would it cover and how would this help develop the solution)</p>
<p>How would you ensure the long-term sustainability of your solution?</p>
