

STAND Up! - Final Capitalization Event

19 September 2023

Tunis, Sheraton Hotel

Hosted by:

Project partnership:

About the STAND Up! project

Sustainable Textile Action for Networking and Development of circular economy business ventures in the Mediterranean (or STAND Up!) is a project under the ENI CBC Med Programme implemented in Egypt (Sekem), Italy (Prato Textile Museum Foundation), Lebanon (Berytech), Spain (MedWaves) and Tunisia (CETTEX and CITET).

STAND Up! addresses the pressing need for a transition to an environmentally and socially responsible circular model in the textile sector, a traditional key industry in the Mediterranean with an undoubted cross-border nature. The solution to accelerate this transition is innovative entrepreneurship, which, in addition to its positive environmental benefits, generates employment in the region.

STAND Up! has supported textile entrepreneurs and eco-innovative ventures in these 5 countries and helped them seize the business opportunities that the green evolution is generating. For this ambitious goal, the project undertook many actions in training, financial grants, market stimulation, technology transfer, IPR protection, etc.

About the ENI CBC Med Programme

The ENI CBC Mediterranean Sea Basin Programme is a multilateral Cross-Border Cooperation (CBC) initiative funded by the European Neighbourhood Instrument (ENI). The Programme objective is to foster fair, equitable and sustainable economic, social and territorial development, which may advance cross-border integration and valorise participating countries' territories and values. For more information, please visit: www.enicbmed.eu

Objectives of the Capitalization Event

- To make the knowledge, the outcomes and the tools of STAND Up! widely accessible and exploitable
- To spread innovative approaches and methodologies as drivers of eco-innovation
- To help building know-how by raising awareness and improving communication of results in the specific field (T&C thematic cluster) at local, regional, national, Mediterranean and European level
- To boost cross-border synergies and exchanges between project's stakeholders
- To support policy-oriented innovations and development by fostering the mainstreaming of good practices into local, regional, national and Euro-Mediterranean public policies
