

SEACAP 4 SDG | Med SE(A)CAP integration through uniform adapted assessment and financing methods, mainly targeting buildings in education and health sectors, for sustainable development goals in a smart society

September 2023

SEACAP 4 SDG to unveil innovative solutions and tools to reduce energy consumption in public buildings

The **SEACAP 4 SDG partners**, in collaboration with Egyptian municipalities, institutional entities and selected local experts, will host the **Final event** and **Capitalization Conference** to be held both in presence and online, next **Wednesday September 6th** (10:00 am – 03:30 pm, local time) at *Arab Academy for Science, Technology and Maritime Transport*, in Alexandria (Egypt).

The **SEACAP 4 SDG project**, funded by the European Union under the ENI CBC Med Programme, aims to find innovative solutions and tools to reduce energy consumption in public buildings through cost-effective approaches to energy refurbishment, integrating **Sustainable Energy Access and Climate Action Plans and Innovative Support Mechanisms for Cities**.

During the day, an overview on the **European Union intervention on cooperation projects on environment, climate change and energy** will be presented from different institutions representatives. The SEACAP 4 SDG project partners' will highlight the **project results** and present to the audience the implemented support mechanism for the pilot case municipalities.

The gathering provides also an opportunity to discuss about **new models of sustainable energy development actions** to implement within the Mediterranean territories during the **round table "Towards green and sustainable Egyptian cities"**.

The event is open to decision-makers, local government officials, and local, regional, and national energy agencies, as well as professionals.
