

# SEACAP 4 SDG

Med SE(A)CAP integration through uniform adapted assessment and financing methods, mainly targeting buildings in education and health sectors, for sustainable development goals in a smart society

- € 950.770,21 ENI funding
- 18 months
- December 2021 - June 2023

The **SEACAP 4 SDG project** aims to reduce the energy consumption of public buildings, by integrating **Sustainable Energy Access and Climate Action Plans (SE(A)CAP)** via a uniform adapted assessment **Toolkit** and an innovative financing methodology, which will support selected cities in implementing tools and methods from the 16 **Selected Reference Projects (SRPs)**.

Here are the highlights of project developments and upcoming activities!
