## Transdairy Living Lab Lebanon

TRANSborder key enabling technologies and living labs for the DAIRY value chain.

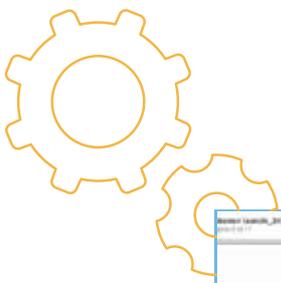

# The Launch of Living Labs

A vision for a more sustainable dairy industry

In an online event on Wednesday, March 24, 2021, TRANSDAIRY brought together a diverse group of stakeholders. This included researchers, industry players, SMEs, public sector representatives, and entrepreneurs. The event introduced the TRANSDAIRY project, its context, and its components.

**TRANS-DAIRY**

The Euro-Lebanese Center for Industrial Modernisation (ELCIM)

**Main information on ELCIM**

Initially an EU funded project through a joint the EU and the Lebanese Government.

**Main objective** (Provide specialized technical assistance to Manufacturing enterprises).

- Served 350 companies for technical and 600 with business assessment missions
- Produced more than 300 trainings to companies

**Activities:**

- Business & Technical assistance to the SMEs through the following paths:
- SME Support Programme
- Food Advisory Unit
- Lebanon Software Cluster

It was a platform for exchanging best practices and implementing Key Enabling Technologies in the Dairy Value Chain. The event demonstrated the power of collaboration and innovation, paving the way for a more sustainable and efficient dairy industry.
