Vincent Ernoux, coordinator of the Interreg NEXT MED Branch Office for the Western Mediterranean

Conclusions and final remarks

OBJECTIVES

The event is in line with the several COP28 themes such as FINANCE / TRADE / GENDER EQUALITY / ACCOUNTABILITY and YOUTH, CHILDREN, EDUCATION AND SKILLS.

The vision of the [Interreg NEXT MED](#) Programme is to support cooperation projects that addressing joint socio-economic, environmental and governance challenges at Mediterranean level such as the uptake of advanced technologies, competitiveness of SMEs and job creation. In this context, addressing the needs of young entrepreneurs to start new climate-friendly business is crucial to decarbonize our economies.

The event will **disseminate the results of several projects funded by the ENI CBC Med Programme** (predecessor of Interreg NEXT MED). Projects such as INVESTMED, Stand-Up INTECMED or MED4WASTE, demonstrating how the cooperation between across the Mediterranean entities has led numerous young entrepreneurs to start business paving the way to decarbonization.

The Programme is pleased to organize withing the Mediterranean Bureau this specific event during the COP28. Speakers will intervene in presence and on-line and the moderator from the Programme will be on-site.
