

**Job vacancy:** *Post-doc position for candidates having a PhD degree*

**Location:** *Laboratory of Environmental Bioprocesses-Centre of Biotechnology of Sfax, Tunisia.*

**Position:** *Post-doctoral researcher*

**Number of positions:** 1

**Call opens:** 17-08-2020

**Call closes:** 16-09-2020

**Description:**

*CBS is seeking a postdoctoral researcher to work in the frame of the CEOMED project. In particular, the candidate will contribute to the installation, operation and maintenance of a biogas pilot plant treating solid organic wastes. The main operating and environmental parameters optimizing the anaerobic digestion of organic wastes will be investigated.*

**Requirements:**

*The candidate must have a PhD degree in biological engineering with specialization in environmental biotechnology. He/she must have strong expertise and hands-on experience in the field of anaerobic digestion. The candidate must know how to operate and maintain continuous bioreactor, characterize organic wastes, and determine the main outputs of the anaerobic digestion process. Preferably, he/she must be a highly motivated, self-driven and results-oriented person with excellent communication and presentation skills. The ability to work both independently and as a team member is an advantage. The working language is English.*

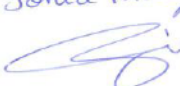

**Annual gross salary:** 10 312 € (33 000 DT)

**Contract time:** 22 months

**Next steps to apply:**

*The call will be published on the website of Centre of Biotechnology of Sfax ([www.cbs.rnrt.tn](http://www.cbs.rnrt.tn)) and will remain open from approximately August 17<sup>th</sup> 2020 for about 1 month. The selected candidate will sign the contract from November 2<sup>nd</sup> 2020.*
