

## MoreThanAJob Multiplier Event in Greece

Athens | 23.07.2021

## **“MoreThanAJob - Reinforcing social and solidarity economy for the unemployed, uneducated and refugees”**

*Five countries work together to promote SSE and PA partnerships and to support the social and employment inclusion of vulnerable groups.*

The financial crisis in Europe, as well as the unstable financial and political situation in many Mediterranean Partner Countries, sorely tested the applied economic model. Furthermore, around 15 million persons (migrants and refugees) born in a third country currently live in the region and need to find a job or enter the education system. It has become apparent that new and credible alternatives to the mainstream economy are needed. These transformations in the economy and the society have brought increased attention to the social and solidarity economy (SSE) actors that have been capable of helping to turn the challenges into opportunities.

“MoreThanAJob - Reinforcing social and solidarity economy for the unemployed, uneducated and refugees” project will deliver and demonstrate a framework of best practices, previously identified and studied for the inclusion of the unemployed (including refugees and uneducated) in the work and education system. The framework is based on the collaboration of SSE actors and public authorities for delivering in a more effective way their services. This will be done through pilot sub-projects aiming to ensure a long-term impact and the creation of jobs. MoreThanAJob project officially started on 4<sup>th</sup> of September 2019 and is implemented in 5 countries: Palestine (An-Najah National University and Nablus Chamber of Commerce and Industry), Jordan (Mutah University), Lebanon (BCTS - Business Consultancy and Training Services), Italy (CESIE) and Greece (EUROTraining Educational Organization).

The Multiplier Event in Greece will provide an opportunity for informing the various stakeholders, the prospective beneficiaries and the wider public about the project’s aims, its objectives, the activities and the achieved results so far. In addition, it will offer the chance to network and learn from the experience of similar projects, in order to create synergies for the future steps of its implementation. The event will be in the Greek language.

MoreThanAJob is a 36 months project, with a total budget of €2 million and it is financed by the European Union with a 90% contribution.
