

1. What are the DSB services that Cettex can provide as part of our project?

- Color Range: Dyeing of a color catalog in labdips form.
- Prototyping: Collection development, size sets...
- Dyeing: Realization of the coordinates of assorted accessory colors, dyeing small amounts of material.
- Assistance : Development and optimization of new processes, Tests before industrialization
- Expertise and R&D : Natural and mineral Dyes, waterless Dyeing.

CETTEX provides the sub-grantees with all the equipment procured and the human resources allocated within the framework of the Tex-Med Alliance project.

Materials used, production consumables and logistics costs are the responsibility of the company participant in the project.
