Med4Waste Policy Toolkit

**Mediterranean Dialogue
for Waste Management
Governance**

- The operational know-how of the Med4Waste project has been used to develop a **Policy Toolkit on Municipal Solid Waste Management**.
- It's core element is a **set of recommendations and policy guidelines** to promote better governance in the sustainable use of resources and management of waste and facilitate the implementation of the necessary steps to achieve a circular economy in the Mediterranean.
- It addresses **national, regional and local authorities of Mediterranean countries** while it is relevant to all key stakeholder groups working on waste management.

Laying the ground for the Policy Toolkit

Survey to policymakers to capture objectives and key elements to guide its development

Synthesis of the main lessons learned stemming from:

- ✓ Med4Waste activities and mainstreaming events
- ✓ achievements and challenges of five ENI CBC MED projects
- ✓ lessons learned from applied cases in the region

Mapping of Mediterranean policies and strategies on solid waste management

Expertise and know-how obtained by key experts and the project partnership

Policy Recommendations on Sustainable Waste Management

The Med4Waste recommendations have been developed on the basis of the following:

- The Mediterranean's social, economic and cultural heterogeneity - no "one size fits all" solution.
- Focusing on common challenges throughout the region.
- Covering all aspects of sustainable development.
- Addressing the sub-national/local, national and Mediterranean levels.
