

CLIMA

CLEANING INNOVATIVE MEDITERRANEAN ACTION

**DECENTRALIZED MANAGEMENT OF MUNICIPAL
ORGANIC WASTE IN THE MEDITERRANEAN
CAGLIARI 25/10/2023**

CLIMA project presentation

Valerio Baldissara, *Project Manager*

CLIMA project is funded by the EU within the ENI CBC Med programme

THEMATIC OBJECTIVE

B.4.2 - Reduce municipal waste generation and promote source separated collection and the optimal exploitation of its organic component

Project Objectives and Key Words

Contributing to the reduction of the waste production by boosting sorting policies and technologies, and economically valorising the organic component

Upgrading the waste cycle management in pilot municipal areas in Italy, Lebanon and Tunisia with increased sorting and economic valorisation of the organic component as secondary raw material

The territories and the partners
