

RESET - REsults Enabling Transitions: mapping, synthesising and mainstreaming sustainable, green and circular business support achievements in the MED region, for replication and policy-making.

Insights, updates and news of RESET project

In our 3rd issue, we present our expert insights from the region, progress of the project, and the open application of the WeMed award 🏆

Circular Economy Pioneers in the Mediterranean

About RESET

19 Capitalised projects

Innovating Green business support in the Mediterranean region

funded by the ENI CBC Med Programme, RESET aims to support green business creation in the Mediterranean region by identifying and analyzing the best practice of green business creation, with partners from 5 countries: Spain, Lebanon, Italy, Palestine and Tunisia.

PARTNERS INSIGHTS **Highlighting innovative approaches that promote green business creation**

We asked our partners what it means to be engaged in RESET, and how it has shifted their approach to promoting green and sustainable businesses.

RESET: Navigating challenges, and breaking barriers for a circular economy

PROJECT INSIGHTS **Overcoming challenges in implementing green and circular economy strategies**

we explore challenges faced by Euro-Med countries in adopting green business strategies and how initiatives like RESET can help overcome them.

[Read the full article](#)

Funded by the EU under the ENI CBC Med Programme, RESET targets seven Mediterranean countries and will address enabling green business sector at higher levels of the green and circular eco-system – from business support organisations to green business experts, through sharing of knowledge and best practice. Our stakeholders include; EU projects, local initiatives and policymakers, with whom RESET seeks to capitalize on their knowledge related to training, advice, networking services, access to funding and markets.
